1 Australia-India Cyber and Critical Technology Partnership – Grants Process

DFAT has worked with stakeholders to plan and design the program according to the [Commonwealth Grants Rules and Guidelines \(CGRGs\)](#). The process map below provides a brief outline of the process.

1.1 Introduction

These guidelines contain information for the Australia-India Cyber and Critical Technology Partnership's 2021 grant opportunity.

You must read these guidelines before filling out an application.

This document sets out:

- the purpose of the grant program/grant opportunity
- the eligibility and assessment criteria
- how grant applications are considered and selected
- how grantees are notified and receive grant payments
- how grantees will be monitored and evaluated
- responsibilities and expectations in relation to the opportunity.

2 About the grant program

The Australia-India Cyber and Critical Technology Partnership (AICCTP) contributes to Australian Government priorities to promote a stable and prosperous Indo-Pacific, to pursue our economic, trade and investment agenda and to keep Australia and Australians safe and secure.

The AICCTP will run over four years from 2020-21 to 2023-24. The AICCTP will help shape a global technology environment that meets Australia and India's shared vision of an open, free, rules-based Indo-Pacific region.

The AICCTP complements the Australia-India Framework Arrangement on Cyber and Cyber-Enabled Critical Technology Cooperation signed by Australia's Minister for Foreign Affairs Senator the Hon Marise Payne and India's External Affairs Minister Dr S. Jaishankar as part of the Australia-India Comprehensive Strategic Partnership announced during the Leaders' Virtual Summit on 4 June 2020. The AICCTP aligns with Australia's International Cyber and Critical Technology Engagement Strategy. The AICCTP also supports the Australian Government's Cyber Security Strategy 2020, which recognises the importance of working with our international partners to enhance cyber resilience and security. We administer the program according to the [Commonwealth Grants Rules and Guidelines](#) (CGRGs).

Box 1

The objectives of the AICCTP are to:

- shape international discourse on cyber and critical technologies, particularly through strengthening understanding of ethical frameworks and supporting research and development of technical standards for emerging and critical technologies;
- deepen institutional linkages between Australian and Indian researchers, businesses and government on cyber and critical technology issues; and
- support India and potentially other countries in the Indo-Pacific to improve their cyber resilience or foster best practices in critical technology development.

2.1 About the AICCTP's 2021 grant opportunity

The AICCTP's 2021 grant opportunity (round 2) will consider proposals for practical cooperation and collaboration on cyber and critical technology, which will help shape a global technology environment that meets our shared vision of an open, free, rules-based Indo-Pacific region. Round 2 proposals will focus on the following area:

- **Activities to strengthen understanding of ethical frameworks, and to support research and development of technical standards, for emerging and critical technologies**, such as (but not limited to) Artificial Intelligence (AI), next generation telecommunications (5G/6G), Internet of Things (IoT), quantum computing, synthetic biology, blockchain and big data.

Future grant rounds may consider broader proposals for Australia-India collaboration on addressing cyber security challenges, including enhancing the security of the Internet of Things, 5G/6G and cloud technology.

To achieve desired outcomes, the AICCTP will support a collaborative model, which sees Australian and Indian stakeholders combine knowledge and resources to advance and protect our collective interests in cyberspace and critical technology sectors. The Department of Foreign Affairs and Trade (DFAT) will look favourably on grant bids that involve multi-stakeholder and cross-disciplinary partnership, which utilise Indian and Australian expertise. In addition, bids could also look to engage institutions in other countries throughout the Indo-Pacific, or be designed to be scalable and replicable in India and elsewhere in the Indo-Pacific. Where opportunity exists, DFAT also supports any efforts to mainstream gender equality in the implementation of grant activities, in order to support gender equality and women's empowerment.

2.2 Strengthening understanding of ethical frameworks and supporting research and development of technical standards for emerging and critical technologies

The next generation of technological developments merges new discoveries in physical, digital, and biological systems. India and Australia have a key role to play in contributing to the global development of technologies such as Artificial Intelligence (AI), next generation telecommunications (5G/6G), IoT, quantum computing, synthetic biology, blockchain and big data. These technologies have the potential to dramatically impact economic competitiveness, national security, international peace and stability, and social cohesion.

Strengthening understanding of ethical frameworks for emerging and critical technologies will be central to ensuring these technologies are designed, developed and used in a manner that advances Australia and India's shared interests. Ethical frameworks must be grounded in existing international law, including international human rights law. The AICCTP's 2021 grant opportunity seeks to build collaboration between industry and civil society to strengthen understanding of non-binding ethical frameworks, and how they can be translated into practical action.

Standards create trust and consistency, foster innovation and drive economic growth. There is opportunity to create more transparent approaches to technical standards setting and to promote stronger coordination between standards development organisations to reduce duplication and overlap. The AICCTP's 2021 grant opportunity seeks to leverage the role of Australian and Indian institutions to promote international harmonisation and conformance between relevant technical standards and emerging and critical technology standards. Eligible activities could be designed to assist in preventing divergent standards that splinter markets and stymie innovation. Activities could also deliver improved coordination and capacity to progress standards discussions on emerging and critical technologies.

Box 2

The AICCTP's 2021 grant opportunity will prioritise emerging and critical technology-related proposals that focus on the following areas:

- a) activities that facilitate Australia-India research partnerships, in particular involving academics and think tanks, to strengthen understanding of ethical frameworks for emerging and critical technologies, and the development of best practice on translating ethical frameworks (including existing global frameworks like the G20 AI Principles) into practical action;
- b) initiatives that encourage the development of technical critical technology standards that advance Australia and India's interests, and enable more meaningful engagement in international standards discussions; and
- c) research on the trends shaping the global and technology marketplace or that assesses the opportunities and effectiveness of ethical frameworks or technical standards for emerging and critical technologies.

3 Grant amount and grant period

3.1 Grants available

The AICCTP's competitive open call grant round 1 and subsequent rounds are anticipated to allocate up to around \$5.2 million from 2020-21 to 2023-24. Up to \$1,000,000 is anticipated to be available for allocation in grant round 2 for 2021-22, with the total annual amount available to grow each year subject to budget appropriations.

For any single grant proposal, the minimum is \$150,000 per year and the maximum amount is \$600,000 per year. Multiyear grants will be considered up to a maximum of \$250,000 per year for up to three years from 2021-22 to 2023-24. Grant funding for activities in 2022-23 will be contingent on funding becoming available to DFAT under the AICCTP.

Prospective grantees cannot use funding from other Commonwealth, state, territory or local government sources to fund your share of eligible expenditure. DFAT reserves the right to offer less funding than that requested by the applicant.

4 Eligibility criteria

You can apply for grants under any Commonwealth program, but if your applications are successful, you must choose either a grant under the AICCTP or the other Commonwealth grant.

4.1 Who is eligible to apply for a grant?

To be eligible you must:

Applications involving partners based in third countries in the Indo-Pacific (including but not limited to Japan, Indonesia, Singapore and other ASEAN countries) are encouraged.

5 What the grant money can be used for

5.1 Eligible grant activities

To be eligible your project must:

- collaboration mechanisms across industries or levels of government
- other critical technology-related best practices and innovative solutions.

We may also approve other activities.

5.2 Eligible expenditure

You can only spend the grant on eligible expenditure you have incurred on eligible grant activities. Expenditure must be reasonable and proportional to the grant size and in line with the project outcome.

Eligible expenditure items are:

- Personnel - Eligible labour expenditure for the grant covers the direct labour costs of employees you directly employ on the core elements of the project. Partners will be asked to provide the name, designation, responsibility and number of hours given to the project of staff whose salary/consultancy fees are covered from project funds. DFAT will ask for these

supporting documents at the time of due diligence. Partners will be asked to submit copies of payment receipts in their mid-term and/or end of year report.

- Direct costs of the eligible grant activities.
- Travel – Estimated costs for domestic and/or international economy class airfares and modest accommodation and per diems that are essential for delivery of the project. DFAT will provide further guidance to successful applicants to calculate total eligible travel costs, to ensure costs align with DFAT’s travel policy.
- Equipment – DFAT will only fund ‘small equipment’ or software specific to the project proposal. ‘Small equipment’ is defined as equipment under a total of \$10,000 that is used collaboratively and, where possible, is Australian-made. Computing equipment or software should be specialised and required for the completion of the project. DFAT will not fund general equipment or software that would be normally provided by institutions, such as standard computers or the Microsoft software suite.
- Monitoring, evaluation and learning (MEL) – As a key component of the program, costs associated with MEL processes and activities to inform program reporting and learning should be identified separately within the indicative budget outline.
- Administrative support. Indian partners should comply with the latest Foreign Contribution (Regulation) Amendment Rules regarding the cap on spend on administrative expenses. In line with the Foreign Contribution (Regulation) Amendment Act, 2020, no Indian lead partner receiving funds directly from DFAT should transfer funds to the secondary/local partners or stakeholders of the project.

7 The grant selection process

7.1 Assessment of grant applications

We first review your application against the eligibility criteria.

If eligible, we will then assess your application against the assessment criteria (see Section 6) and against other applications. We consider your application on its merits, based on:

1. how well it meets the criteria
2. how it compares to other applications
3. whether it provides value for money.

When assessing the extent to which the application represents value for money, we will have regard to:

- the overall objective/s to be achieved in providing the grant
- the relative value of the grant sought
- the extent to which the evidence in the application demonstrates that it will contribute to meeting the outcomes/objectives.
- How the application will serve to leverage productive partnerships between stakeholders.

7.2 Who will assess applications?

An assessment committee will assess each application on its merit and compare it to other eligible applications before recommending to a decision-making committee which grant applications should be awarded a grant. The assessment committee may seek additional information about you or your application. The assessment committee may seek additional information from other parties to help us assess or verify the quality or fidelity of applications (e.g. this may include references checks in relation to performance against past projects).

7.3 Who will approve grants?

The decision-making committee, chaired by the Program Delegate, will decide on which applications to approve for a grant. The Program Delegate will take into account the recommendations of the assessment committee and the availability of grant funds for the purposes of the grant program.

The Program Delegate's decision is final in all matters, including:

1. the approval of the grant
2. the grant funding amount to be awarded
3. the terms and conditions of the grant.

There is no appeal mechanism for decisions to approve or not approve a grant.

8 Notification of application outcomes

We will advise you of the outcome of your application in writing. If you are successful, we will advise you of any specific conditions attached to the grant.

9 Successful grant applications

9.1 The grant agreement

You must enter into a legally binding grant agreement with the Commonwealth.

We must execute a grant agreement with you before we can make any payments.

Your grant agreement may have specific conditions determined by the assessment process or other considerations made by the Program Delegate. We will identify these in the agreement.

The Commonwealth may recover grant funds if there is a breach of the grant agreement.

9.2 Specific legislation, policies and industry standards

You must comply with all relevant laws and regulations in undertaking your project. You must also comply with the specific legislation/policies/industry standards that follow. It is a condition of the grant funding that you meet these requirements. We will include these requirements in your grant agreement.

9.2.1 Intellectual Property Rights

In cases of activities that include a research component (i.e. research and development of technical standards), applicants must provide details of any intellectual property (IP) arrangements in their applications. This includes both the use of IP in the project and the proposed ownership rights to IP generated by the project as well as strategies for protecting Australia's interests. Where

IP is likely to be generated by the project, successful applicants are encouraged to conclude protocols or contracts between all relevant collaborating partners on the management of IP issues. These agreements should be in accordance with laws and regulations in Australia and India and provide for:

- adequate and effective protection and equitable distribution of any benefits from IP rights created in or resulting directly from cooperative activities (foreground IP rights)
- ownership of foreground IP rights to be allocated on the basis of respective contribution and equitable interests
- terms and conditions for the commercialisation and other forms of dissemination of the foreground IP rights
- adequate and effective protection of IP rights provided by the organisations, enterprises and institutions prior to or in the course of such cooperative activities, for example, the licensing or utilisation of such IP rights on equitable terms (background IP rights).

Australian participants should approach IP negotiations in line with the principles outlined on business.gov.au.

9.2.2 Export Controls

As this program may involve research collaboration with foreign entities, some provisions of Australia's export controls regime may apply to your project. It is your responsibility to consider the implications, if any, of the relevant legislation on the proposed project before submitting your application, and to comply with any applicable requirements if it is successful. Further information is available here: <https://www1.defence.gov.au/business-industry/export/controls>.

9.3 How we pay the grant

We will make payments according to an agreed schedule set out in the grant agreement. Payments are subject to satisfactory progress on the grant activity or project.

9.4 Grants Payments and GST

Payments will be GST Inclusive.

Grants are assessable income for taxation purposes, unless exempted by a taxation law. We recommend you seek independent professional advice on your taxation obligations or seek assistance from the [Australian Taxation Office](https://www.ato.gov.au).² We do not provide advice on your particular taxation circumstances.

10 Announcement of grants

If successful, your grant will be listed on the GrantConnect website 21 calendar days after the date of effect as required by Section 5.3 of the [CGRGs](#).

11 How we monitor your grant activity

11.1 Keeping us informed

You should let us know if anything is likely to affect your grant activity or project. We need to know of any key changes to your organisation or its business activities, particularly if they affect your

² <https://www.ato.gov.au/>

ability to complete your grant, carry on business and pay debts due. If you become aware of a breach of terms and conditions under the grant agreement, you must contact us immediately.

11.2 Reporting

Successful applicants will be engaged under a Grant Agreement with DFAT that will detail agreed implementation, accountability, funding, reporting and acquittal requirements. DFAT may request applicants amend parts of their proposals, such as project plans or risk management approaches, during this process.

11.3 Audited financial acquittal report

We may ask you to provide an independently audited financial acquittal report. A financial acquittal report will verify that you spent the grant in accordance with the grant agreement.

11.4 Grant agreement variations

We recognise that unexpected events may affect your progress. In these circumstances, you can request a variation to your grant agreement. You can request a variation by writing to CyberAffairs@dfat.gov.au.

You should not assume that a variation request will be successful. We will consider your request based on provisions in the grant agreement and the likely impact on achieving outcomes.

11.5 Compliance visits

We may visit you during or at the completion of your grant activity to review your compliance with the grant agreement. We will provide you with reasonable notice of any compliance visit.

11.6 Record keeping

We may also inspect the records you are required to keep under the grant agreement.

11.7 Evaluation

We will evaluate the grant program or opportunity to measure how well the outcomes and objectives have been achieved. We may use information from your application and reports for this purpose. We may also interview you, or ask you for more information to help us understand how the grant impacted you and to evaluate how effective the program was in achieving its outcomes.

11.8 Acknowledgement

A Grant Agreement for successful applications may specify requirements for acknowledgements on all materials related to grants under the program.

12 Probity

The Australian Government will make sure that the grant opportunity process is fair, according to the published guidelines, incorporates appropriate safeguards against fraud, unlawful activities and other inappropriate conduct and is consistent with the CGRGs. These guidelines may be changed from time-to-time. When this happens, the revised guidelines will be published on GrantConnect.

12.1 Enquiries and feedback

The complaints procedures available at DFAT's website apply to complaints about AICCTP grants. The procedure for making a complaint about AICCTP grants is available on [DFAT's website](#). All complaints about a grant process must be lodged in writing.

If you are at any time dissatisfied with DFAT's handling of a complaint, you can contact the Commonwealth Ombudsman on:

If you do not agree with the way the DFAT has handled your complaint, you may complain to the [Commonwealth Ombudsman](#). The Ombudsman will not usually look into a complaint unless the matter has first been raised directly with DFAT.
